UNLEASH YOUR AUDIO

SOUNDCAST

OutCast

The Ultimate Outdoor Wireless Speaker

The OutCast weather-resistant, wireless speaker lets you enjoy rich multi-directional stereo sound throughout your house, in your yard, on your patio and even on your boat. With a 350-foot broadcast range, this powerful wireless speaker receives transmissions through walls, floors, and ceilings without the hassle of running wires.

Transmitter

How to make this device work

- Connect the transmitter to the desired Pre-out on the receiver.
- Place the OutCast anywhere in the home or outside to enjoy music while you relax.

Tech Notes

- Connect the transmitter; iCast and U.A.T. are your choices, to the source.
- Plug in the OutCast to any outlet.
- NOTE:** The OutCast comes with a battery pack that when charged can play for over 12 hours! No need to keep it plugged in!
- 2 Packages Available
